

# The Corporate Security Management

**Postgraduate Study Programme (2 years)**

## Programme Objective

The management of business and security mechanisms in the economy, industry, national institutions and civil society.

## Why Choose **Corporate Security Management**?

- Profession for today and tomorrow. The study focuses on multi-disciplinary theoretical and practical knowledge from the field of management and corporate risks.
- Complementing your vast business knowledge. The study introduces contents, which are relevant for corporate security: geo-strategic and political aspects of security risks, security standards in business processes, security risk management, planning and development of corporate security on every level, monitoring processes, economic intelligence and mechanisms for managing various risks.
- Introduction to global business environment. The study analyses numerous examples from local and international companies, represented by the top professionals from the field of security in the region.

## Who is the Programme Intended For?

- Managers and professionals from the field of corporate security to expand their business knowledge and to gain a wider perspective for better understanding of global business, information, communication and security environment.
- Individuals with desire for knowledge in department management in the field of corporate security in public and economic environment and international corporations.
- Entrepreneurs and employees in the systems of energy, telecommunication, information, transport, finance, and everyone faced with the question of security and risk in their organization.

## Study Programme and Modes of Study

- **ENROLMENT CONDITIONS:** completed 1st cycle (Bachelor's degree or its equivalent) or previous higher education professional programme. The possibility of enrolling directly in the 2nd year. More detailed enrolment conditions at [www.gea-college.si](http://www.gea-college.si).
- **DURATION OF STUDY:** 2 years and 120 ECTS.
- **DEGREE:** Master's degree in Corporate Security Management  
The programme is accredited via the Ministry of Education of the Republic of Slovenia and is consequently recognised worldwide under the EU directive. The studies are in line with the Bologna Declaration (3+2) and the European Credit Transfer System (ECTS).
- **STUDY MODE:** a flexible study mode with the possibility of designing an individual study plan to accommodate the working and other obligations of each student. The programme is based on studying and treatment of practical cases and supported with an online platform for students to assist them in their individual tasks.
- **ADDITIONAL ACTIVITIES AND ADVANTAGES:** Cooperation with enterprises, excursions and company visits, international exchanges (study or practice), Career Centre support, international conference, Alumni Club. Studies are supported with a modern e-portal with study contents available 24 hours per day.

The two constants of today are the great dynamics of the business environment and the conditions of crisis situations. Those, who fail to understand it, are left behind. Stay in touch with the future and let us give you what you need for managing risks and creating new business opportunities with interdisciplinary knowledge, based on transfer of good practice indirectly from the business environment.

**Doc. Dr. Denis Čaleta**, lecturer, President of the Institute for Corporate Security Studies
